

Hidden Lines In Engineering Drawings

engineering graphics standard - pennsylvania state university - e. r. evans, jr. - 1/2/01, revised 1/7/02 engineering graphics standard - page 3 of 16 hidden line conventions: hidden lines are shown on drawing views to represent hidden edges or contours. **figure 2-1: orthographic projection.** - **sdc publications** - 2 - 1 orthographic projection ... an engineering drawing is a drawing or a set of drawings that communicates an idea, design, schematic, or model. engineering drawings come in many forms. each engineering field has its own type of engineering ... hidden lines: hidden lines represent edges and boundaries that cannot be seen. **engineering drawing - union county vocational-technical** ... - hidden lines represent features that can not be seen in the current view center line represents symmetry, path of ... dimension and extension lines indicate the sizes and location of features on a drawing . example: line conventions in engineering drawing . good practice . exercise **eg07** complete three orthographic views of the object shown on the ... **eg07** **sectional views - university of iowa** - eg07 sectional views sectional views, commonly called sections, are used to show interior detail that is too complicated to be shown clearly and dimensioned by the traditional orthographic views and hidden lines. a sectional view is obtained making an imaginary cut through the part, and by **technical drawing - franklin w. olin college of engineering** - spring 2006 mec1000 technical drawing - d. anderson 12 drawing views sectional views ... there exist standardized sheet formats for creating engineering drawings. american national standard ... remove hidden lines unless absolutely necessary to describe the shape of the object 5. consider datums and dimensioning scheme based on **chapter 4 orthographic projection and multiview constructions** - hidden features may project lines to coincide with the visible object lines. and center lines may occur where there is a visible or hidden outline. in creating a multiview drawing, the features of the design are to be represented, therefore object and hidden lines take precedence over all other lines. and since the **dwg 001 blueprint reading line standards drawing symbols** ... - this section will explain how to read and interpret lines, part callouts, and symbols that are shown on a picture sheet. engineering groups use standard lines, symbols, and drafting procedures to describe information contained on picture sheets. **engineering drawing & cad standards - faculty web** - engineering drawing & cad standards mechanical design/cad program c. bales, m. vlamakis 9000 west college park way, palo sh hills, illinois, 60465 c. hidden lines shall be omitted on features when they appear foreshortened in orthographic views. **chapter 8 auxiliary views, developments, and intersections** - generally, hidden lines should be omitted in auxiliary views, unless they are needed to clearly communicate the drawing's intent. for practice, show all hidden lines, especially if the auxiliary view of the entire object is shown. later, when you are familiar with drawing auxiliary views, omit hidden lines **slide set 1** **alphabet of lines and precedence of lines** - bng 101 **engineering graphics slide set 1** **alphabet of lines and precedence of lines** . an introductory point . please read pages 1 -1 through 1-15 of the planchard text on your own ... hidden lines cutting plane lines centerlines break lines **multiview sketches answer key - university of tennessee** - multiview sketches answer key purpose it's a very common occurrence to see a product advertisement and think, *oh, I thought ...* use points, hidden lines construction lines, and object lines to sketch the three common views used to explain the object. the scale is 1:1 which means each grid line on the isometric view represents **iee** **transactions on pattern analysis and machine** ... - 3d reconstruction from line drawings without hidden lines liangliang cao, jianzhuang liu, senior member, ieee, and xiaouu tang, senior member, ieee ... j. liu is with the department of information engineering, the chinese university of hong kong, hong kong. email: jzliu@iehk. **chapter 7 sectional views - ceetu** - hidden lines should be omitted in section views unless they are necessary, as in fig. (b). a section-lined area is always completely bounded by a visible outline never by a hidden line. the cross hatching in all hatched areas must be parallel in a sectional view of a single object, along or in assembly. **a brief introduction to engineering graphics** - a brief introduction to engineering graphics will durfee & tim kowalewski

department of mechanical engineering university of minnesota. opening comments ... the feature / don't dimension to hidden lines. 4. don't dimension to object lines (model edges), use extension lines. 5. don't overlap a dimension and the model.
